Subject: Settlement

I wish to express my disappointment with the settlement you and other states have reached with Microsoft regarding the antitrust suits filed against this company. Far from punishing Microsoft in any way, or preventing further monopolistic practices, this settlement seems to actually reward Microsoft. Please reconsider this settlement and insure that substantial, verifiable and strict restrictions are put on Microsoft and their dealings with computer vendors and competitive software companies. A lot is at stake here; please revisit this issue.

Sincerely,
Dr. Sally Laurent-Muehleisen
